

Common Black College Application is a platform which allows you to make your application, test scores, and transcripts available to all 58 participating Historically Black Colleges and Universities. This application is available to both incoming-freshmen and transfer students. Apply [here](#), pay a one-time \$20 entrance fee to apply to 58 HBCU institutions. Please note that this does not include all HBCU -- there are over 100 -- so check to see that the colleges or universities that you are interested in accept CBCA or the general Common App!

Once you submit your application and pay the \$20 entrance fee, your application will be made available to all 58 Member Institutions. Note: You cannot use a fee waiver to pay this entrance fee.

Although your application is available to all 58 member institutions, you will be asked to select your top four colleges. This allows your top schools to know you are seriously interested, and allows admission officers to gauge your interest level in their school.

Once you complete your application, you should include your school guidance counselor's name and email address. They will receive an email instructing them on how to create an account to upload an official copy of your transcript and test scores.
