

Make a bird's nest

1. Collect any supplies you want to build your nest.

There are some sticks in the bag, and you can use more sticks, grass, leaves, and any other nature materials you find.

2. Press the plain playdoh onto your paper plate, to hold down your nest.

3. Build your nest, pushing your nature materials into the playdoh and making a space for the eggs.

4. Shape the blue and orange playdoh into eggs and arrange them in your nest.

5. Find a place for your nest to live!

This kit also has a bird scavenger hunt and bird writing prompts for you to do outside. While you are observing, decide what kind of bird you want to live in this nest!
