# JAWS Station

JAWS ("Job Access With Speech") is a computer screen reader program for Microsoft Windows that allows blind and visually impaired users to read the screen, either with a text-to-speech output or by a refreshable Braille display.

YDL also offers a headphone splitter so that two people can listen to the JAWS machine simultaneously.

***YDL's JAWS machines are located on the (W) first floor by the magazine collection and in the (M) New Book Room.***

YDL has a collection of nearly 5,000 popular books in large print format. Genres such as Mystery, Western, Science Fiction, and more ensure that all readers will find something to enjoy. A “New Book” shelf preceding the collection displays the latest arrivals.

# Washtenaw Library for the Blind and Print Disabled

Administered by the Ann Arbor District Library, the Washtenaw Library for the Blind and Print Disabled loans books, magazines, and movies to individuals of all ages who are unable to read or use standard printed materials as a result of temporary or permanent visual or physical limitations.
