Communication
Director Hoenig explained the situation with YCUA and elaborated on the plan discussed at the construction meeting with them and other vendors.

Committee Reports
A. Superior Township Planning – due to power outage on Monday the branch was closed. Michigan Avenue had a planned closure for no water that day, so the summer lunch program only took place at Whittaker. Power and water were restored Tuesday and lunches served at all three branches.
Director Hoenig also advised of an extremely large water bill for Superior. However, upon inspection it was determined there were setup issues with the meters. They have reversed the charges and a plan is in place to correct the meters.

Director Hoenig advised a couple of the County Commissioners hope to provide a sizable contribution to the library, which eventually we would put towards the road project. The cost of that project was increased due to construction delays and inflation. It is also believed that the Township will match the Commission’s funds.

B. Fundraising Committee – Director Hoenig advised we have about $8,000.00 to go on the Superior Capital Campaign. We are also receiving many memorial gifts in honor of Trudy Adams.

C. Facilities Report – Director Hoenig advised we should wait on the sidewalk reconstruction project as no bids were received. We will rebid the project in the winter to get on contractors’ radar sooner. Other potential projects for 2023 were outlined.

Report of the Library Director
Director Hoenig started off her report with a picture of the new Ford Explorer’s wrap that was installed on 06/22/2023. The vehicle is ready for the 4th of July parade! Director Hoenig also updated the Board on the payroll implementation with payroll processing scheduled for 07/06/2023, as well as regarding the TALK grant with Jodi Krahnke joining MCLS to present TALK as a service to state library representatives from Ohio and Arizona on 07/10/2023.

Director Hoenig closed her report with a discussion of the information received by YCUA. Lead pipes were discovered running from the street to the building. YCUA will replace with copper at no cost to YDL. At the same time, the crews will create a separate line for the fire suppression system.
