**Presentation: Michigan Avenue Roof Investigation Report, Jared Lawrence, Terracon, Inc.**

Senior Associate and Group Manager Jared Lawrence, Terracon, Inc., joined the meeting virtually to present the general findings of their investigation of the roof gutter and drain conditions at Michigan Avenue. Terracon sent personnel on August 17, 2023, to conduct water testing of the internal gutter system using infrared cameras to identify water infiltration from testing. Mr. Lawrence identified the existing structure and components, and outlined potential areas for failure, including the design, age, materials used, weathering effects and workmanship. Some concerns include that the gutter system was never intended to accommodate the thermal expansion and contraction in the sheet metal lining that contains the water within the gutter system. Mr. Lawrence also discussed that after the July 1, 2023, flooding that caused the branch to close, a rubber flashing was installed by the contractor, Bloom Roofing, to remediate the water infiltration that moved up and over the inside lip of the drip-edge to the gutter system and back-flowed into the building. The testing identified water infiltration primarily along the seams of the gutter, at solder joints, rivet locations and drains. Bloom Roofing has proposed using a patch system at gutter seams. Terracon determined that this is a cost-effective solution that would provide some durability for the next five to eight years. Terracon will further investigate products and approaches to address the sealant joint between the gutter system and the roof cornices and report back to YDL.

**Presentation: Michigan CLASS, Kristen Angel, Senior Director, Investment Services**

Director Kristen Angel, investment Services, joined the meeting virtually to present on the Michigan Cooperative Liquid Assets Securities System (Michigan CLASS) investment program. Michigan CLASS was established pursuant to a Participation Agreement dated October 1, 1991, as most recently amended

November 1, 2021, and as may be amended from time-to-time, by and among certain public sector entities having joined as Participants. The program's Investment Advisor and Administrator is Public Trust Advisors, LLC, and the program's Custodian is Fifth Third Bank. Director Angel advised that the objectives of the Michigan CLASS program are to provide Participants with an investment alternative that emphasizes safety, liquidity, convenience, and competitive rates of return. The program is designed specifically to accommodate the needs of Michigan public sector investors. In addition, periodic meetings with and surveys of the Participants assure user input in the design and administration of program features. Director Angel closed her presentation with a robust question and answer session with the Board Trustees.

**Consent Agenda**

Trustee Maddix moved to approve consent agenda (July 26, 2023 Regular meeting and July 2023 Financials and Check Registers). Trustee Kennedy supported this motion.

New drinking fountains with the high/low stations and water bottle filler are also being installed at Whittaker in the next few days. Finally, there are electrical issues in the Plaza at Michigan Avenue due to the recent flooding. Work is being performed to identify the issue.
